

# Intermediate general principles of coaching

## Evening lecture course

The key to sport development is coach education. The National Coaching Accreditation Scheme (NCAS) is a progressive coach education program. It offers opportunities for coaches to acquire a greater knowledge of coaching that will enable the continued development of our sporting talent.

This course will be conducted on seven consecutive Monday evenings from 16 June, 2008.

## Intermediate general principles of coaching

Coaches must have their Level 1 accreditation with at least 12 months coaching experience.

To successfully complete this course, participants must:

- Attend all seven nights of lectures
- Do some home study
- Complete sections of the workbook and submit for assessment.

This course aims to develop practical coaching knowledge and skills for the intermediate coach. The text *Intermediate general principles of coaching* will be used, with mention of a variety of other recommended texts throughout the course.

The Intermediate general principles of coaching course, combined with the sport specific component plus practical coaching hours, will provide higher level accreditation within the NCAS.
